- ▶ **LIMITED LIFETIME WARRANTY**

FEATURES & SPECIFICATIONS

Straight line clamp system and cable adjustment provides a sag-free bracing system and strongest support system on the market.

Both sashes on the double hungs raise and lower for ventilation as well as tilt inward for access to the exterior glass surfaces from inside the room.

Continuous Master Frame

FRAME

- Virgin vinyl frame and sashes are fusion welded to provide precise tolerances.
- Foam filled posts on all bay units deliver excellent thermal performance.

SASH

- Overlapping interlocking sashes provide maximum view and ensure positive sash-to-sash contact providing superior strength, durability, and enhances thermal performance.

WEATHERSTRIPPING

- Dedicated head jamb that features a triple seal weatherstripping, an anti-drift snubber and no snap-in head adapter.

GLASS

- Energy efficient 7/8" insulated glass provides year round comfort. Glazing options available.

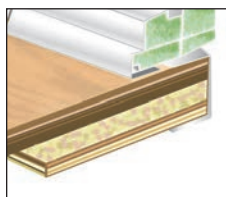

HARDWARE

- 2 locks on all windows 26" wide and wider.

SCREEN

- Electrostatic painted, extruded aluminum screen is color matched.

SEATBOARD FEATURES

- Optional **MAXX-Bay® TK Thermal Kit Insulated Seatboard** creates a superior thermal barrier suitable for any bow window.
- All seatboard are made using **PureBond®**, a non-toxic free coating. Composed of soy protein, not urea formaldehyde.
- Furniture grade unfurnished birch veneer can be finished to match any interior.

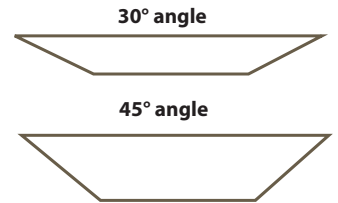

***All unfinished wood surfaces must be treated and finished.**

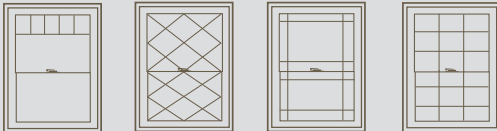

AVAILABLE WINDOW STYLES

Add a panoramic view and increase the sense of openness to any room. A bay window is usually composed of three individual windows; the center fixed picture window and two double hungs offer a look from contemporary to colonial. Created with a classic 1/4, 1,2, 1/4 configuration.

GRID STYLES

Craftsman Diamond Prairie Colonial

GRIDS BETWEEN THE GLASS (GBG)

Grids are placed between two panes of insulated glass, making cleaning a snap.

Select from a **contour** or **flat** grid

SIMULATED DIVIDED LITES (SDL)

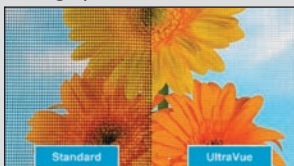

SDL
Simulated Divided Lites

Note:
SDL's not available on diamond grid pattern.

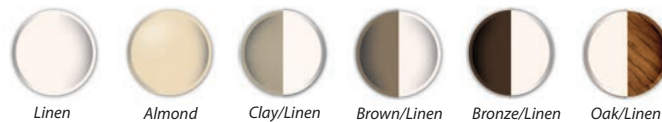

Note: Only available in UltraTite and PerfectFit series

ULTRAVUE SCREEN

This excellent visibility insect screen provides better clarity and more light through your windows.

Note: Only available in UltraTite and PerfectFit Series

WOCD-WINDOW OPENING CONTROL DEVICE

Factory-applied Window Opening Control Devices. To meet the standard, our devices limit the window's net clear opening to 4" or less.

Window Opening Control Device (WOCD) meet ASTM F2090-10 safety requirements.

Check local codes regarding egress and WOCDs.
