Window Options

Garage door windows have a great deal to do with the overall look of any garage door. General Doors' Advantage Carriage House doors up to 10' wide are available with either two windows (Long Panel) or three windows (Short Panel), plus several distinctive design trim styles that work with a variety of architecture. Wider doors have different layouts. Color matched frames and design trim inserts that snap-in and snap-out for easy glass cleaning are standard. Advantage CH windows are clear DSB glass.

Color Options

Our Advantage CH is available in three color choices. Although doors should not need repainting, if a custom color is required, our paint system provides an excellent base for any field applied paint.

Track & Hardware

Heavy-duty track with a unique elliptical curve that reduces the force necessary to roll the door along the track, making opening and closing easier and smoother. Full leaf, heavy gauge hinges, and nylon rollers with steel bearings offer superior strength and years of trouble-free operation.

Decorative Hardware

General Doors' decorative hardware is an ideal way to customize an Advantage Carriage House door. Inspired by antique carriage door hardware and available in wrought iron or flat black, this finishing touch can transform the look of any door and even the look of your home.

"Wrought Iron" style - 1/4" thick

"Stamped Steel" style - 1/8" thick

Here's why we can offer a "Lifetime Rust-Through Warranty"

A standard feature of the Advantage Carriage House is our tough, anti-corrosion protection - inside and out.

Baked-on Polyester Top Coat (1.0 mil. thick)

Primer Coat

Hot-dipped Zinc Coat (Galvanized)

Stamped Carriage Hardware

Sandwich-type construction with 26 gauge steel both sides

3-Section door means more glass area

Decorative hardware in wrought iron or stamped steel

Finely detailed beaded panel provides more authentic detail

Unique, double tongue-in-groove joint with thermal break

Exclusive center bead enhances overall appearance

Double contact bottom seal

Details are what separate a well designed door from an ordinary door.

For homeowners or home builders who want the timeless look of carriage house doors, General Doors offers the Advantage Carriage House, a door that is distinguished not only by the improved appearance of larger windows and fine detailing, but also energy efficiency, quality features, and low maintenance.

Lifetime limited warranty against rust-through and/or delamination of door face. See dealer for complete warranty information.

Green Building Benefits

Energy savings from insulation value, local manufacturing, recycled content, and product longevity.

"Highly energy efficient R-Value of 18"

Newport 200 Carriage House Insulated Steel Garage Doors

The Newport 200CH offers homeowners, as well as home builders, the timeless look of carriage house doors, one of the industry's highest insulation values, and the strength and practicality of pre-finished steel in a variety of colors. This is a premium, highly energy efficient door featuring a calculated insulation value of R-18.

- Sandwich-type construction with 2" polyurethane insulation, pressure bonded between two skins of 26 gauge (.017) G60 steel
- Steel is rust-proofed with hot-dipped galvanizing, pre-painted on both sides with a primer, and finished with a top coat of baked on polyester for an exterior paint thickness of 1.0 mil
- Three layer construction provides a calculated insulation value of R-18, along with exceptional strength and a substantial, solid feel during operation
- Finely detailed stamped carriage panels with a deep woodgrain texture
- Panel options include Short Recessed Grooved Panel, Long Recessed Grooved Panel, and Long Recessed Flat Panel
- Tongue and Groove section joint with bulb seal for tight closure
- Thermal break between steel skins for maximum energy efficiency
- 11 factory finish colors to choose from, including four wood look finishes

Built for Appearance, Low Maintenance, and Long Life

Model SRP

Steel Raised Panel Garage Doors

We have captured the timeless elegance of a raised panel door and combined it with the durability, security, and low maintenance of pre-finished 24 gauge steel. Compare our Steel Raised Panel (SRP) model with any other make of steel door. The manufacturing quality and superior appearance are readily apparent after installation and for years to come.

- 2" thick Pan-type door constructed with full 24 gauge steel (.022 thickness)
- Steel is rust-proofed with hot-dipped galvanizing, pre-painted on both sides with a primer, and finished with a top coat of baked on polyester for an exterior paint thickness of 1.0 mil
- Optional factory installed 1-1/2" thick polystyrene insulation with calculated R-value of 6.85 increases energy efficiency while reducing noise levels
- Finely detailed woodgrain surface with deeply embossed panels for a sharp, well-defined appearance
- Raised panel sizes of appropriate proportions and spacing ensure all door sizes have an authentic raised panel look.
- Tog-L-Loc fastening system provides strength to joints without burning or piercing the metal
- Rivet-free door surface creates smooth, uniform look
- 4 factory finish colors to choose from

Hardware includes heavy-duty track with a unique elliptical curve that reduces the force necessary to roll the door along the track, making opening and closing easier and smoother. Full leaf, heavy gauge hinges, and rollers with steel bearings offer superior strength and years of trouble-free operation.

Combined with an Elegant
and Distinctive Look

Quality Door Solutions
Since 1947

Homestead Carriage House Steel Garage Doors

For homeowners or home builders who want the timeless look of carriage house doors, combined with the durability and low maintenance of pre-finished 24 gauge steel, General Doors offers the Homestead Series.

Our 24 gauge construction is 17% thicker than 25 gauge and 31% thicker than 26 gauge

- The Homestead is 2" thick Pan-type door constructed with full 24 gauge steel (.022 thickness)
- Steel is rust-proofed with hot-dipped galvanizing, pre-painted on both sides with a primer, and finished with a top coat of baked-on polyester for an exterior paint thickness of 1.0 mil
- Natural woodgrain texture with a distinctive beaded panel design
- Unique center bead simulates authentic old-time swinging carriage door look
- Rivet-free door surface creates smooth, uniform look
- Tog-L-Lock fastening system provides strength to joints without burning or piercing the metal
- Resilient vinyl weather strip on door bottom with aluminum retainer minimizes air infiltration
- Optional factory installed 1-1/2" polystyrene insulation with a vinyl backing increases R-value to 6.85

WINDOW OPTIONS

Garage door windows have a great deal to do with the overall look of any garage door. General Doors' Advantage Estate doors up to 10' wide are available with either two windows (long panel) or four windows (short panel), plus several distinctive design trim styles that work with a variety of architecture. Wider doors have different layouts. Color matched frames and design trim inserts that snap-in and snap-out for easy glass cleaning are standard.

Insulated Steel and Vinyl Garage Doors

Carriage House Style Doors
with Overlay Trim Boards

Quality Door Solutions
Since 1947

Lancaster Series Insulated Steel and Vinyl Garage Doors

For homeowners or home builders who want the timeless look of an authentic carriage house door, including an oversize window section, built on an insulated core with virtually maintenance-free materials, General Doors offers the Lancaster Series of overhead garage doors.

Four Layer Construction Using Full 26 Gauge G-60 Galvanized Steel Skins Inside and Outside and a Solid PVC Overlay

- Unlimited classic carriage house designs are available by combining any of four base colors, eight door designs, eight window options, and a large selection of applied decorative hardware
- Four layer sandwich-type construction using prefinished materials (steel + insulation + steel + PVC overlay)
- 1-3/8" polystyrene core and a thermal break between inside and outside skins result in R-value of 6.7

- Double tongue and groove joint for the tightest section fit possible
- Durable two-coat baked-on polyester finish on both sides of base door
- Cellular PVC overlay is totally moisture and insect resistant – meaning no rust, cupping, warping, or splitting
- Use of one-piece sheet of PVC eliminates seams in overlay
- Details like molded edges and center kerf create a finished look
- Heavy-duty hardware includes nylon rollers for quiet operation and full leaf 14 gauge hinges

Door Designs

We can accommodate a variety of door heights and widths.
Standard widths: 8', 9', 10', 16', and 18'
Standard heights: 6'6" and 7' – 3 section
7'6" and 8' – 4 section

Base Door Colors

BRIGHT WHITE

ARCTIC WHITE

ALMOND

SANDTONE

All overlay design boards and window trim are available in Bright White only. The Arctic White base color takes on a light gray appearance by comparison that serves to highlight the overlay design.

WINDOW OPTIONS

Garage door windows have a great deal to do with the overall look of any garage door. The lite styles shown here can be matched with any door design except for the barn style designs, which are solid only.

Decorative Hardware

The decorative hardware of General Doors is an ideal way to customize a Lancaster door. Inspired by antique carriage door hardware and available

in wrought iron or flat black, this finishing touch can transform the look of any door and even the look of the home.

Painting

The white surface on the PVC overlay as it is supplied reflects most of the sun's rays, so expansion due to increased temperature is not a problem. However, painting PVC can change this by creating a surface that absorbs much more heat from sunlight. This property is measured by the LRV (light reflective value) of the paint. A lower value, usually a darker color, absorbs more heat. If exposed to direct sun, this could cause expansion and bowing of the overlay. **Avoid painting the PVC with a paint having an LRV value of less than 55.** Doing so will void the warranty.

Painting the base steel door with a high quality exterior latex paint will not cause any problems.

Consider using a Cambridge Model door with composite overlays if a darker color scheme is required.

There's a Lancaster Door for Every Garage

One piece overlay eliminates seams that can open up or curl

Solid PVC with precision milled molded edges add architectural detail to doors

Space to mount decorative hinges above section joint

Center kerf enhances swing door look

Bright white color overlays highlight door design

Base door has natural woodgrain texture

Details distinguish well designed doors from ordinary doors. Details define style. Take the time to compare General Doors with any other manufacturer. You will see the difference.

Limited lifetime warranty against rust-through and a five year warranty against delamination of overlays. See dealer for complete warranty information.

Green Building Benefits

Energy savings from insulation value, local manufacturing, recycled content, and product longevity.
