

A BETTER CHOICE

Whether you're replacing, remodeling or building new, Andersen® 100 Series products offer many advantages over vinyl at a good value. They're made of our innovative Fibrex® composite material that's 2X stronger than vinyl, environmentally smart, energy-efficient and offers superior strength and performance making them a better choice for your home.

- Fibrex material construction provides long-lasting performance and is designed to be an energy-efficient barrier against wind, water and dust
- Virtually seamless corners offer a cleaner, more contemporary look
- Premium matte finish never needs painting and won't fade, flake, blister or peel*
- 100 Series products have a 12X thicker finish than that of painted vinyl windows** resulting in superior scratch resistance
- Sill design offers superior water management and wear-resistance
- Panels are designed for long-lasting,* effortless operation
- Two-point locking system tightens the door against the frame offering weather protection and improved security
- Sidelights and transoms available

DESIGN AND EFFICIENCY

200 Series products deliver Andersen quality at an uncommon value. Built with the right materials in the right places, they offer durability, long-term beauty and options to fit your project needs. And like all Andersen® products, they are supported by over 115 years of commitment to quality and service that can only come from one of the most trusted names in the industry.

- Weather-resistant construction for greater comfort and energy efficiency
- Variety of Low-E glass options available to help control heating and cooling in any climate
- Narroline® gliding patio doors combine the beauty of natural wood with our Perma-Shield® cladding on the exterior that offers superior weather resistance and is virtually maintenance free
- Perma-Shield gliding patio doors are protected inside and out with rigid vinyl cladding to give your home a contemporary look and energy-saving performance
- Gliding doors feature a reach-out lock that seals the panel tight against the frame and adjustable rollers for smooth operation
- Blinds-between-the-glass on Perma-Shield gliding patio doors offer privacy and convenience
- Hinged patio doors offer traditional styling and adjustable hinges that help provide a weathertight seal and smooth operation

CREATE DISTINCTION

A-Series products combine innovative engineering with traditional craftsmanship to make any architectural style easily achieved. They're also the best-performing, most energy-efficient products Andersen has ever offered.

- Virtually maintenance-free that never needs painting and won't peel, blister, flake or corrode*
- Frame exterior is protected by a Fibrex® composite material and fiberglass that provides long-lasting performance
- Weather-resistant construction for greater comfort and energy efficiency
- Variety of Low-E4® glass options are available to help control heating and cooling costs in any climate, including triple-pane glass
- Many A-Series windows have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.
- Exterior trim, made of composite Fibrex® material adds curb appeal
- Variety of grille styles and patterns and between-the-glass art glass create a unique look
- Blinds-between-the-glass offer privacy and convenience. Located between the panes of insulated glass, they are protected from dust and damage and never need cleaning.
- Smart Home options available to monitor the status of your patio doors
- Stormwatch® Protection available for coastal areas

PRODUCT TYPES

- Frenchwood® gliding patio doors
- Frenchwood hinged inswing patio doors
- Frenchwood hinged outswing patio doors
