HGI

Entry Door Systems

Welcome Home

Beauty

HGI Entry Systems will add an element of beauty which will be enjoyed by you, the homeowner, as well as every visitor who comes to your door. Lovely stained and painted finishes will highlight the myriad of decorative glass and unique hardware options. Your new front door will add charm, curb appeal and value to your home.

Strength

All HGI Steel Entry Systems are built using an all-steel construction 22 gauge door which is 33% heavier than competitors doors for security and durability. All HGI FiberStar Entry Doors are constructed with state-of-the-art technology. Laminated composite rails and high impact skins yield outstanding strength and durability.

Safety

The safety of your home and family is always first. HGI doors offer such features as an 18 gauge steel frame, deadbolt, security plates and tempered safety glass. Our steel edge door has over ten times the strength of a wood edge door to protect against forced entry.

Energy Savings

HGI doors will insulate better than many walls with a R rating of 15.1. In layman's terms, our door is the best in the industry at keeping the inside in and the outside out. Windows and doors represent the biggest energy loss in most homes. Allow a beautiful HGI door to save you money.

Lifetime & Beyond Warranty

Like the Amish artisans that live and work near the HOME GUARD factory in Grabill, Indiana, we too craft each door one at a time. We are proud to offer a Lifetime & Beyond Limited Warranty on All HOME GUARD Entry Doors. Our exclusive transferable warranty gives peace-of-mind protection against warping, delamination and twisting of door slab for as long as you own the door...and beyond. Please see our Warranty Card for details.

HGI 101: How to Build A Door

1.) Select a HOME GUARD® door style from the 27 unique families of glass and doors styles.

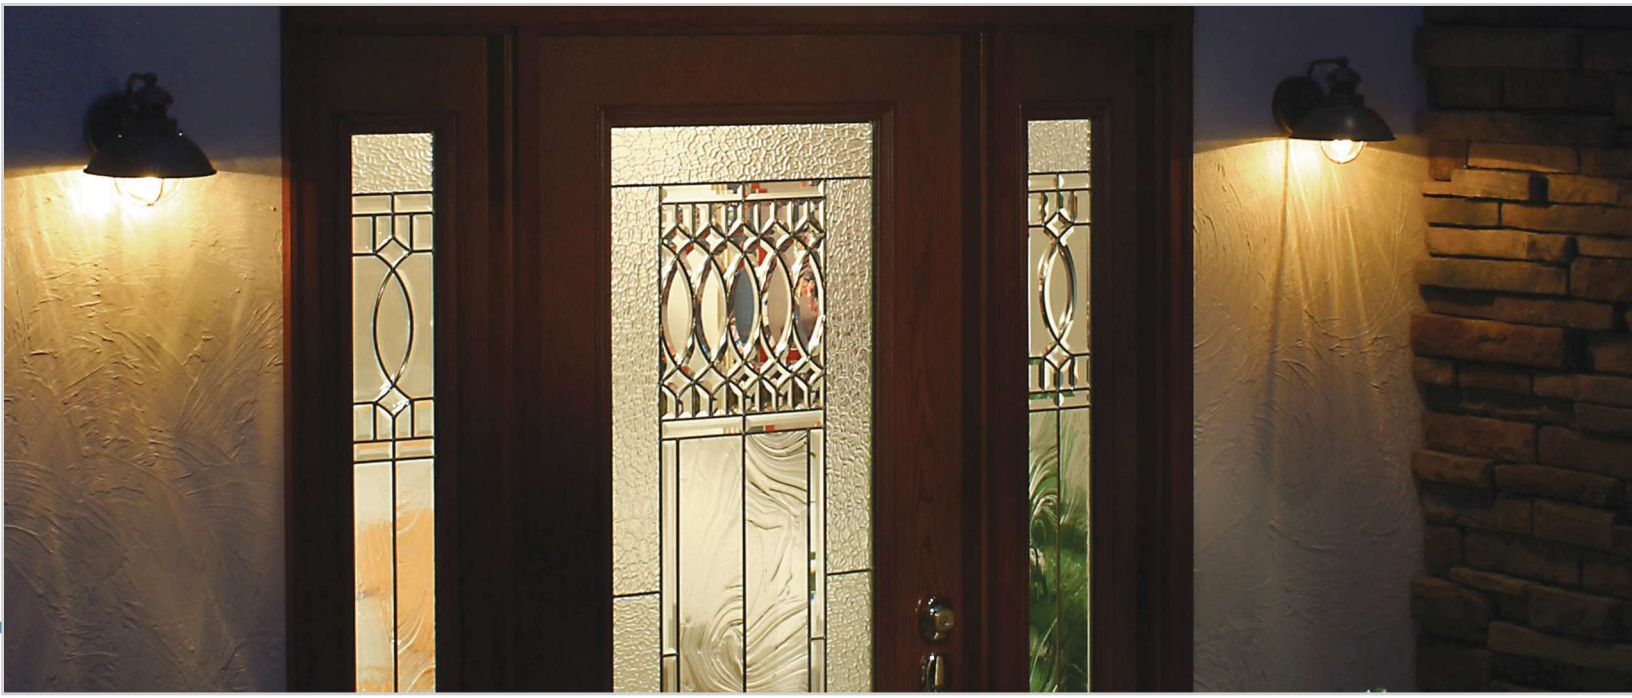

2.) Choose from our seventeen decorator colors or seven hand applied stain finishes for the inside and outside of your new entry door.

3.) Select a knob, lever or handleset (even keyless!) from the many styles and finishes offered to compliment your door.

4.) Add functionality with a peepsite, knocker, kickplate or magazine slot. Add strength and beauty with our exclusive HGI Cladwrap or Timberframe door frame options.

Steel Door Features

HOME GUARD IronWood® Paintable Smooth Steel and Stainable Steel Doors are the ultimate in home security, beauty, long-term value and longevity. Increased energy savings, safety, home value, curb appeal, a rock-solid warranty—there are a multitude of reasons to upgrade today to a HOME GUARD door.

HOME GUARD entry doors* are Energy Star approved and meet strict energy efficiency guidelines set by the EPA and US Department of Energy.

* Certain door styles do not qualify due to glass options.

All doors feature steel edge construction and are fully insulated with an inner core of environmentally friendly polyurethane foam and offer a superior R-factor of 15.1 for the ultimate in energy conservation. Our steel doors are wood-free and will not swell, split, twist, warp or rot like other steel doors with wood rails and lock block.

The door bottom weather-strip slides off and on for easy replacement and forms a weather-tight seal to the threshold. The result is a superior seal that keeps the inside in and the outside out.

Our exclusive steel "L" frame provides the next measure of security adding strength to your entrance. This crucial element is available on all HGI replacement doors and our adjustable strike plate makes installation easy on every door upgrade.

The unequaled security of steel - A wood edge steel door (left) cracked under the force of one hit of a 100 lb. test weight. Steel edge doors (right) did not force open after seven hits of a 100 lb. test weight.

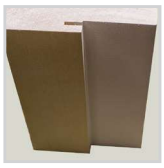

HOME GUARD's Exclusive Timberframe® all-composite frame offers all the beauty of wood with none of the headaches. Completely maintenance and worry free, the Timberframe® will not warp, rot, mold or wick water and can be stained to match all HGI door stains. Timberframe® is an option on most HOME GUARD doors.

HOME GUARD's exclusive, patented Adjustable Hinge Plate System® adjusts up or down and in or out for a tighter weatherseal against the elements and gives you increased energy savings. Also a standard feature on all Signature Series Fiberglass Doors.

Hardware finish matched Ball-Bearing Hinges are standard on all doors and offer the ultimate in smooth operation. Individual ball bearings ensure years of quiet, trouble-free use.

Duraframe Jambs are the standard wood frame on all HGI doors and are constructed using an Alaskan Cypress base which repels water preventing the wood from wicking and rotting.

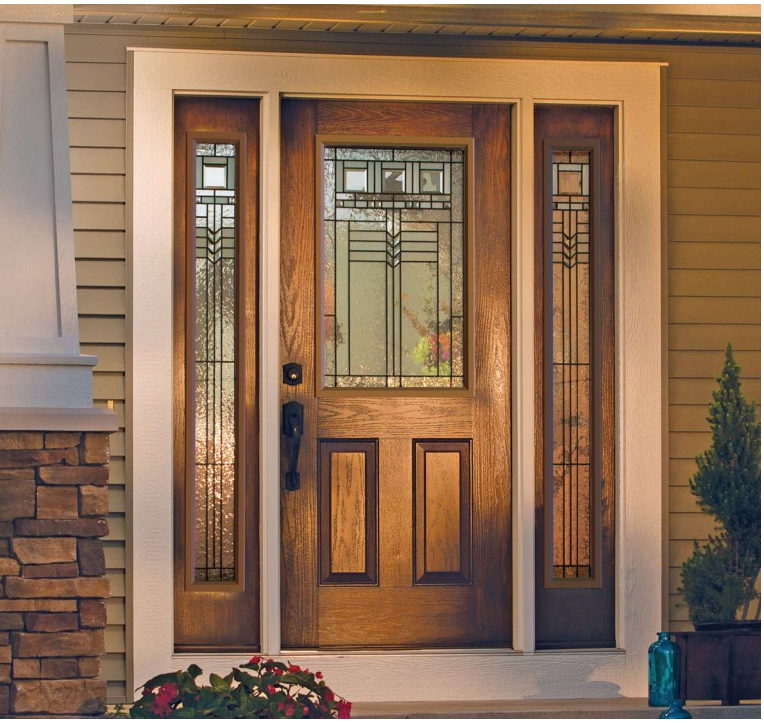

HGI's full 4" X 10" Composite Lock Block has more screw holding power than wood. Injection molded for uniform size, there is no distortion of the door skin typically found with wood lock blocks.

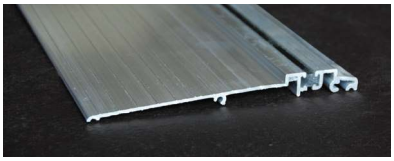

Fiberglass Door Features

HOME GUARD FiberStar™ Fiberglass Doors are beautifully designed with patented Hydroshield™ technology.

This revolutionary system ensures that water is repelled from the perimeter of the door to eliminate twisting or warping.

Optional Low-Profile, Handicapped Sill Available

Deep detailed embossments create a real wood door look without the maintenance and headaches of real wood.

Fiberglass doors feature a woodgrain texture. These doors can be painted in any of our 17 decorator colors or hand-stained in your choice of our seven Ironwood® stains.

Special exterior rails are used on the perimeter to shut out moisture from all fiberglass doors. Patented Hydroshield® technology ensures against warping, twisting, rotting or splitting...clearly setting our fiberglass doors apart from all the others.

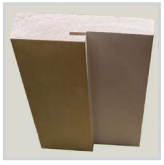

HGI's exclusive Timberframe® all-composite frame offers all the beauty of wood with none of the headaches. Completely maintenance and worry free, the Timberframe® will not warp, rot, mold or wick water and can be stained to match all HGI door stains. Timberframe® is an option on most HGI doors.

The door bottom weather-strip slides off and on for easy replacement and forms a weather-tight seal to the threshold. The result is a superior seal that keeps the inside in and the outside out.

Ball-bearing hinges are standard on all doors and are available in four color choices. Individual ball bearings ensure years of quiet, trouble-free use and provide the ultimate in smooth operation.

Duraframe Jambs are the standard wood frame on all HGI doors and are constructed using an Alaskan Cypress base which repels water preventing the wood from wicking and rotting.

Environmentally Sound Polyurethane Foam Core

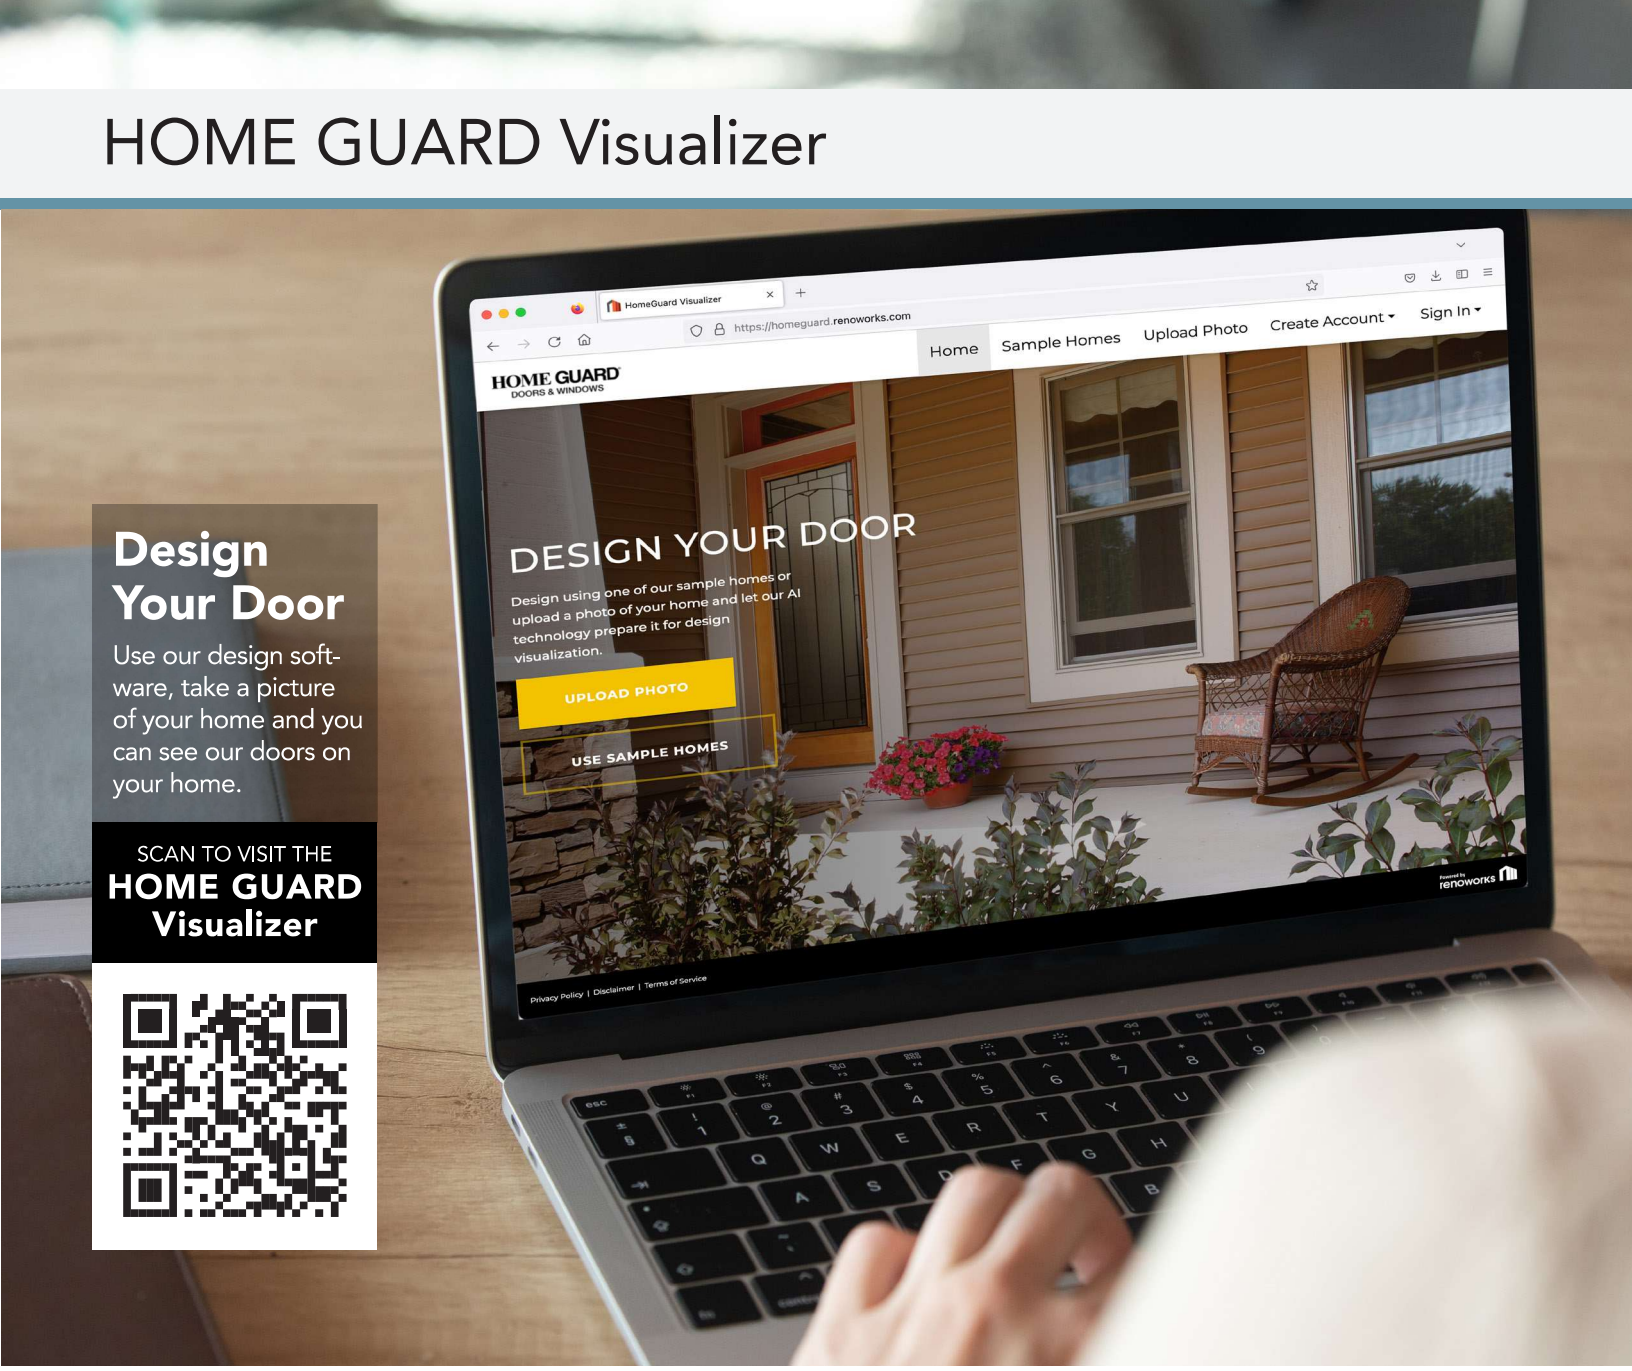

While some other fiberglass door manufacturers still use HCFC-free foam, we are proud to offer a truly "green" door which is completely CFC-free in compliance with the U.S. environmental standards to prevent destruction to the Earth's ozone layer. The advanced polyurethane core used in our doors also enhances the door's soundproofing capabilities and provides insulation properties six times greater than wood.

Signature Series | Natural Fiberglass Grains

The beauty of natural wood, improved.

HGI's Signature Door Series features a patented grain technology process that authentically replicates any natural surface. The door process begins by hand, selecting the most desirable wood pieces which are then used to build a real wood door. A silicone casting accurately picks up the finest details of the wood grain which are transferred to the door mold using our Nickel Vapor Deposition Technology. The resulting mold is utilized to produce the fiber glass skin of each Signature Series door. The result is a breathtaking reproduction with random grain depths and all the natural characteristics of natural wood, but free from the warping, bowing, delamination and moisture issues that plague real wood doors. Born from real wood but vastly improved upon by state-of-the-art technology. The best of both worlds: HGI Signature Series Doors.

Available Stains

Exclusive Adjustable Frame

THE DETAIL IS OUR SIGNATURE

Every Signature Series Entry Door is equipped with HGI's exclusive, patented adjustable hinge plate system. The door hinge is adjustable both vertically and horizontally to deliver the perfect fit on the door frame. The result is superior ease of operation and an industry leading weather-seal against the elements. The bottom line: increased energy savings.

HOME GUARD Exclusive Features

CLADWRAP®

CLADWRAP®

Machine-formed Aluminum Cladding System for ALL HOME GUARD Entry System Doors

CLADWRAP® is a factory-formed, pre-fit cladding system that provides a beautiful, protective coating for the door jamb and brick mold. Available in both coordinating and complimentary colors, our unique cladding system offers:

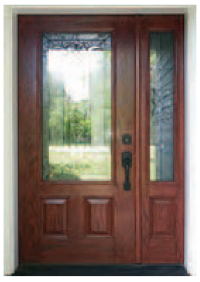

- Jamb Protection
- Lasting Beauty
- Freedom from Maintenance
- Textured Finish

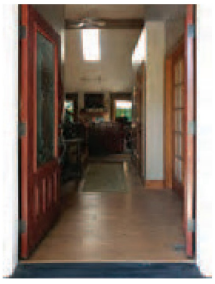

Please refer to page 44 for our complete color palette.

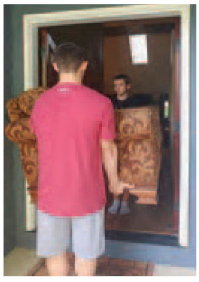

Hinged Sidelite

The HGI hinged sidelite units gives homeowners an option to compliment their entry with clear or decorative glass while allowing operation for full clearance in the opening. The sidelite portion of these door systems operates exactly like the less active side of a double door with an astragal which closes out the weather and secures into the opening with head and foot pins which engage into the top of the door frame and threshold. Beautiful and functionional...another HGI exclusive.

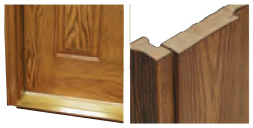

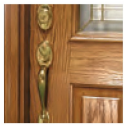

Available in 12" & 14" Fiberglass or Signature Fiberglass only. Jamb outer dimension width will be 7/8" less than standard door and sidelite combo. Wider trim may be necessary.

Timber Frame

TimberFrame®

Hand Finished Composite Jambs & Brickmold

HOME GUARD® is proud to offer TimberFrame® Jambs and Brickmold. These beautiful, hand-stained jambs and brickmold are the perfect compliment to the Ironwood® collection of Stained Steel Entry Doors

TimberFrame® jambs and brickmold are stained to match Ironwood® doors and all are protected with a GuardCoat coating for years of lasting and durable beauty. Add the look and beauty of wood to your home's entrance with the added strength and security of steel... but with none of the headaches.

- Hand Stained To Match All HOME GUARD® Door Stains
- Completely Maintenance & Worry-Free
- Will Not Wick Water
- Will Not Warp, Rot or Mold
- 100% Composite Material
- Available for Single Doors, Double Doors & Single Doors With Sidelites

Burglar Guard Strike

The Burglar Guard is an innovative HGI exclusive feature that transforms a standard wood door jamb into a high security entryway. The Burglar Guard replaces the entire strike portion of the jamb with two walls of heavy steel for the ultimate protection against forced entry. The Burglar Guard also has two 2 -way jamb adjusters to create the perfect margin between the door and the jamb which are accessible simply by removing the strike plates. The strike plates are also adjustable in and out to offer the correct point of insertion for both the deadbolt and the latch.

- 2-Way Jamb Adjuster
- Adjusts latch for both deadbolt & strike
- Allows for perfect weatherstrip compression
- Allows door to close and latch at exactly the right point
- Virtually eliminates kick-in
- Available on single doors and sidelight units

American Home Series

To let the sun shine through, choose clear glass for these traditional door styles. For privacy, many American Home series doors may be available as a Private Lite, such as textured rain glass. Please contact your HGI Inside Sales Representative for availability and pricing.

RETRO

Trends come and go. Good design lasts. As do good memories of homes you grew up in and architectural styles you've admired. HGI's Retro Collection celebrates the best of your design history. Architectural style is what gives a home character. The charm of bungalows. The geometric patterns of mid-century minimalism. Because you're inspired by your home's architecture or the vision of the one you're building, our Retro Collection is for you. It's the finishing touch for the discerning homeowner who appreciates a touch of timeless design and bold color strokes.

Also available in 34 x 80 and 36 x 84 however the appearance will be slightly altered due to the glass placement / spacing.

Perspectives Textured Doorglass

Views and textures from around the world led to this diverse collection of privacy glass styles for your entry door.

Chinchilla

As touchable as its namesake, Chinchilla's fine lines and organic, fur-like texture create a striking wave pattern when seen from afar. It offers a high level of privacy to your home.

All doors above are standard with clear glass only. If you would like any of the decorative styles below, you must choose that style specifically when ordering.

Shaker Series

Shaker simplicity inspires HGI's new Smooth Steel Door collection, including one, two and three panel styles. The clean lines and sleek design fits numerous architectural styles from traditional to contemporary. The Shaker door styles are available in 2/8 and 3/0 widths.

SMSHAK1
1-PANEL SHAKER

The minimalism characteristic of the Shaker style is ideal for anyone looking to add traditional or craftsman style to their home.

Roundtop Entry Doors

HGI is proud to be one of a handful of manufacturers who have perfected the art of producing high quality roundtop and archtop entry doors. These beautiful and unique doors are made from 22 gauge steel and include a factory-installed steel cap. The HGI Roundtop door can be ordered as a replacement frame unit or as a Timeberframe new construction unit. Our roundtops make a perfect, energy saving replacement for antiquated wood doors. Available in 17 baked-on color options or 7 beautiful woodgrain hand-stained finishes, these doors exude charisma and rustic charm, while maintaining modern operation, longevity and energy efficiency.

- 22 Gauge Steel
- Factory Steel Cap
- Replacement Frame or Timberframe® New Construction
- Beautiful renovations
- Wood grains to replace Wood doors
- Archtops are also available

*Glass style available in round top only. Due to the size of the F17RT glass frame, there is a visible seam on the outer rail.

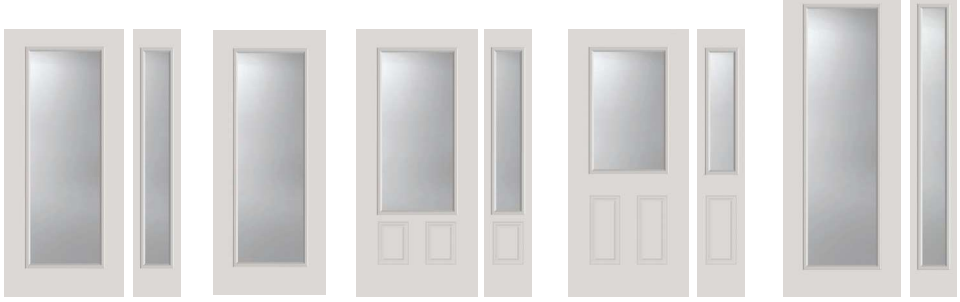

Meet ZEEL®

A minimal design with endless opportunities—ZEEL frames provide a flush-glazed look with the decorative glass styles homeowners desire.

Sleek & Minimal - Designed to be stained or painted, ZEEL blends seamlessly into the entry door, allowing the doorglass to take center stage. This clean, **low-profile look** offers an alternative to flush-glazed doors that provides the style homeowners desire.

Strongest Yet - **FiberMate Plus®** exceeds performance expectations in extreme environments, resisting scalloping and warping in severe temperatures and direct sunlight even when painted dark colors.

Innovative Clip System - **ZEEL eliminates the need for screws** and cumbersome screw hole covers with an innovative clip system. This allows each frame to sit flush.

French Doors

Double doors, or "French Doors" as they are called, offer the opportunity for full access to your home or business. Very helpful for the occasional furniture move and a wonderful way to bring in lots of light or decorative glass accents. Double doors are available with hardware on the primary active door or both the active and secondary door as an option. Double doors are equipped with a state of the art astragal that has a weather close out seal that travels up and down with the internal head and foot bolts. For a classic look consider a HGI french door set available in all door styles, color and stain options. All door styles are available as French/Double Doors.

Easy to operate bolts that secure the secondary door top and bottom

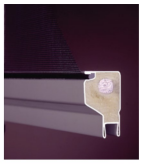

Close out seal travels with slide bolts to ensure a good seal without the usual wear and tear.

Savannah | Patio Door Systems

Savannah Patio Doors are constructed to allow for one operational door hinged off of one fixed door panel. All units include a high quality screen for ventilation. The Savannah has been downsized slightly for easy replacement of standard size sliding doors or it can now be ordered to replace full-size 6' door units. All Savannah units are constructed using our heavy 22 gauge door and carry the exclusive Lifetime & Beyond Warranty. Savannah Patio Doors are available in woodgrain steel. **Savannah Patio Doors are available in ANY full view glass style!**

Heavy-Duty Reinforced Screen w/White Frame (Optional Painted Frame Available)

Deadbolt & Leverset Available in Polished Brass, Satin Nickel and Matte Black

The Endura sill offers a non-conductive, high seal adjustable sill in a composite material that is guaranteed for life.

Low Maintenance Powdercoat Finish

FLEXSCREEN®

All HGI Self-Storing (Vented) doors are supplied with this Shark Tank phenomenon product. This durable, unique screen can be taken out or installed in five seconds.

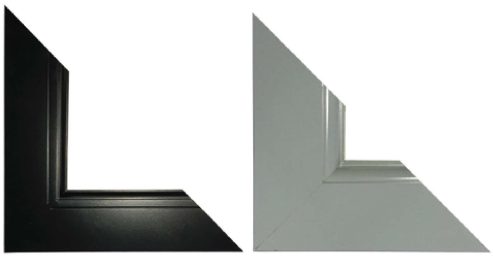

Joe Artieri
Inventor of
Flexscreen

Invisible.

We engineer storm doors for air, light, insulation and security. HGI doors offer all this and more...Our storm doors have narrow rails and are perfect matches to our entry door colors and stains. Show off your beautiful entry door and make your storm door invisible.

More Air/More Light

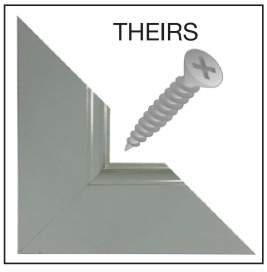

HGI uses heavier frames and welds all corners, allowing for a narrower frame. A narrow frame equates to more air and more light. 12% more air. 12% more light. More of your main door is visible:1.7 square feet more.

Solid Construction

Welded Corner

- No Air
- No Water
- Never Separates

Screwed Together

- Rattles
- Separates
- Air & Water Enters

Tempered Safety Glass

Heat-tempered safety glass ensures the safety of all family members and provides a clear weather shield that is three times stronger than regular glass.

Non-Glare Fiberglass Screen

HGI's fiberglass screen won't dent or puncture like an aluminum screen and offers a clean, non-glare view.

Arc–Welded Corners

HGI's metal inert gas (MIG) welded corners provide the strongest door available, in fact the corner is the strongest point on the door. Storm doors that are screwed together loosen, rattle & sag over time.

Unique Pocket Hinge

Our nested hinge provides strength where it is needed most. As the frame of the door carries the weight, the hinges are not being pulled from the door during operation like competitors doors. Our hinges are self-lubricating and maintenance-free.

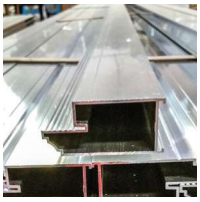

Heavy-Duty Pneumatic Closures

Heavy-duty pneumatic closures with wind chains provide smooth easy closing with a pull-close feature to ensure proper latching.

Choice of Hardware

Choose from our Albany in black or white, The Brookfield in six finishes or our Full Mortise Lever lock in three metallic finishes.

1 ¼" Thick .062" Heavy Gauge Aluminum

Our premium aluminum is dent resistant and sturdy enough to provide years of beauty and performance.

Cove Molded Frame

Our unique cove molded frame profiles offer beauty and style to your front door.

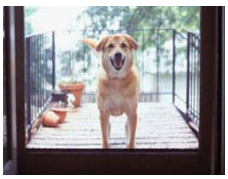

Screen & Glass Options

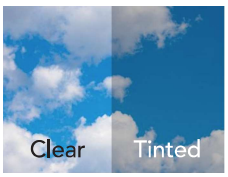

Clearly Better Invisible Screen

Clearly Better® is a revolutionary screen material with high-tech fiber that allows excellent protection against unwanted pests, but appears very clear (nearly invisible). Ask to not see it today!

Heavy-Duty Pet Screen

Pet Screen resists tears and punctures caused by pets. Made of strong vinyl-coated polyester, Pet Screen is seven times stronger than traditional screening.

Tinted Glass

Optional Tinted Glass offers added privacy, creates energy efficiency, provides protection from the sun and reduces glare.

Pet Door

Pet doors are available in our 120 and 140 series Energy Shield AlumiWeld Doors. Available in four sizes for dogs 15 to 220 lbs. (see page 45 for more details). The aluminum frame Freedom Pet Door allows your pet to get in and out on its schedule...not yours. Freedom Pet Doors are available in white only.

ES1203PDD

ES1403PDD

ES1403PDD

Contour panel dividers provide a rich look to door panels while adding rigidity to the already strong .0625" gauge kick pan.

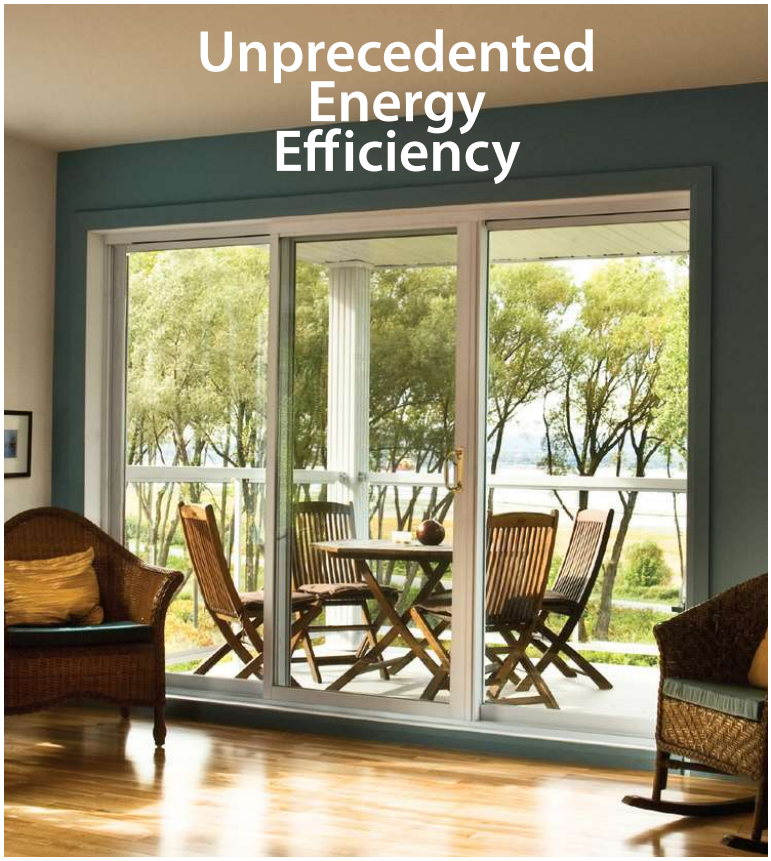

Because AlumiWeld doors are structurally superior to screwed-together storm doors, the outer frame is narrower. The result is more glass, more light, more screen and more air.

Kick panels feature a textured finish

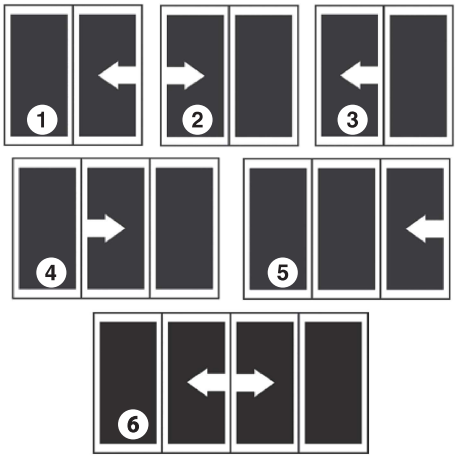

Premium
Sliding Patio Doors

Multiple Configurations

This patio door series is available in 2-panel and 3-panel configurations, with a wide range of energy-smart glazing options and decorative grilles. Transoms with PXO bar available.

Available Standard Sizes

	Order Size	Actual
1	5′	58 ⅞″ X 79 ½″W
2	6′	70 ⅞″ X 79 ½″W
3	8′	94 ⅞″ X 79 ½″W
4	9′	105 ⅞″ X 79 ½″W
5	9′	102 ⅜″ X 79 ½″W
6	12′	138 ⅜″ X 79 ½″W

Home Guard PVC Patio Doors are the quietest, most thermally efficient doors on the market today.

WALK ON THE PREMIUM SIDE

Whether to the backyard or the pool, a Home Guard Premium Sliding Patio Door allows you to connect to your surroundings. Available in standard and custom sizes, the HGI Premium Sliding Patio Door features many unique options to deliver the ultimate in operation and performance.

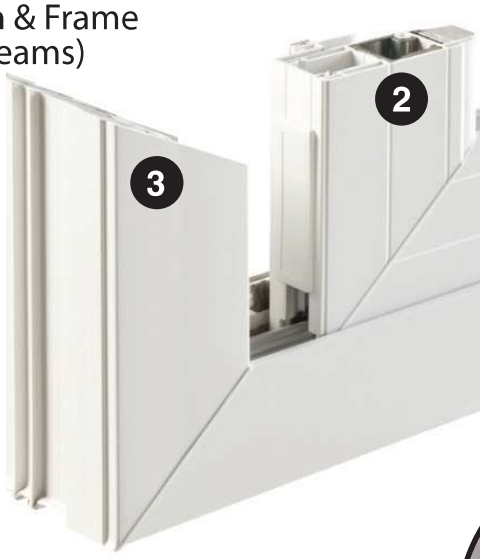

- Traditional interior millwork panel design
- Contemporary styled Multi-Point handle
- Two, three, and four-panel configurations
- Three premium wood-grain interiors
- Three vinyl colors
- Unsurpassed performance
- Metal reinforced panels
- Triple weather-stripping minimizes air infiltration
- High performance sill eliminates water penetration
- Heavy duty extruded screen with spring loaded guides
- Patented dual-tandem nylon wheels
- Custom Sizes

DESIGN PRESSURE: DP 55

1. Multi-Cavity Design (Great Insulator)
2. Reinforced Panels (Structurally Robust)
3. Smooth, clean, easy to maintain PVC
4. Wood Grain Interiors (Beautiful and maintenance-free)
5. Shadow Groove Sash & Frame (No unsightly weld seams)

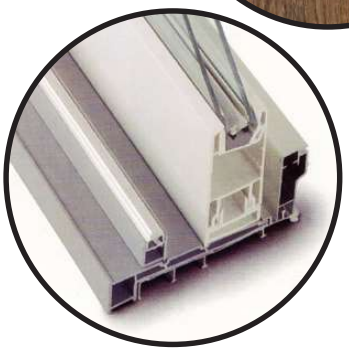

The HGI Door:
More vinyl. More cavities.
More structure. More insulation.

Multi-Chamber Design

Our multi-chamber design reduces thermal exchange and, with more enclosed air space than other brands, increases insulation values.
At lower right, a typical patio door.

Boasting a DP-55 rating, our Patio doors are built to withstand hurricane force winds in excess of 175 m.p.h.

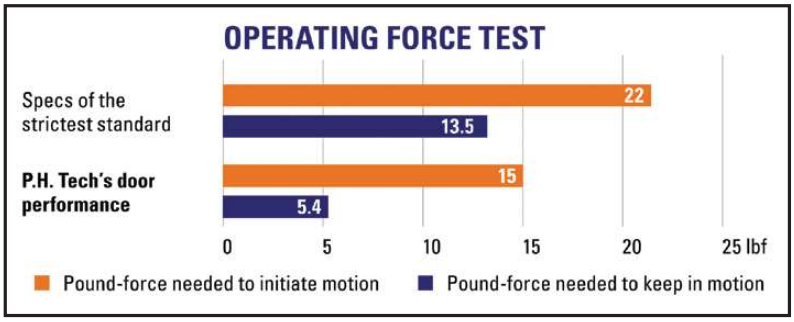

A typical patio door.

Try the Home Guard fingertip test

Bet you can open this door with just the tip of a finger!
The easiest door to operate in its category.

Increased protection

Fixed and mobile panel rails meet and interlock perfectly, making removal from outside almost impossible. Lower sill design provides safer entry and exit.

Footlock for added security

Add the optional footlock for increased security, ease of operation and peace of mind.

PRO•MATCH COLOR SYSTEM
All colors marked "*" are Pro-Match colors.

Pro Match Color System

Our exclusive Pro Match color options are available to coordinate your patio door, entry doors and windows.

This option is available on exterior only.

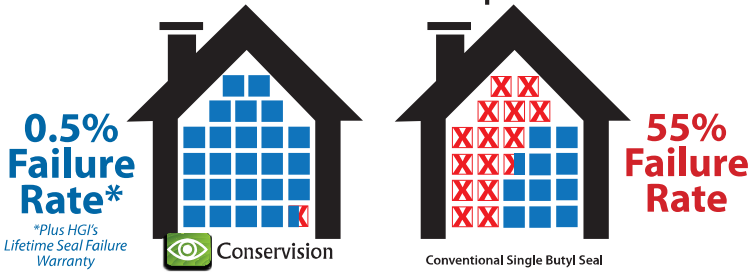

Note: Due to limitations in the printing process, colors may vary. Please see your HGI dealer for exact color samples.
