**For 3000 sq. ft., multi-story home, professionally painted, with repainting every 8-10 years.*

Everything in perfect balance.

For strength, safety and long-term durability, nothing performs like CedarBoards. You'll enjoy warmth, quiet, durability and beauty – and the knowledge that you achieved it all with a sustainable product choice.

Strength and Rigidity

The rigid foam backing and high-quality vinyl construction of CedarBoards create a firm wall of impact-resistant protection for your home. CedarBoards panels have a straight, even face, designed to withstand the harsh elements of nature while looking beautiful for a lifetime.

Quiet and Comfort

The outside world stays outside in a home sided with CedarBoards Insulated Siding. The innovative foam backing reduces exterior noise, enhancing interior acoustics. CedarBoards integral foam increases your home's energy efficiency, providing an extra measure of comfort for your interior spaces. CedarBoards can also increase the overall thermal performance of your home, helping to reduce annual heating and cooling costs.

Standardized testing showed a range of **increased R-Value from 2.0 to 2.7; modest reductions in thermal bridging; average air tightness of 11%**; and

"R" means resistance to heat flow. The higher the R-value, the greater the insulating power.

20 Colors.

As the siding industry's color leader, CertainTeed offers the widest selection of colors for insulated siding. Choose a subtle tone or a deep shade with confidence, knowing that the siding on your home has the highest level of color fade protection available.

Note: Colors throughout this brochure are simulated. Consult product samples before making final selection.

Protection

CedarBoards is designed to protect your home from water and wood-boring insects. The tapered design and integral weep-holes shed water. CedarBoards also resists termites and other wood-boring insects.

Contributes towards LEED and NGBS Green Building Standards

Conservation

CertainTeed respects the environment through responsible development of sustainable building products and systems. While enjoying the comfort of CedarBoards, you'll also enjoy knowing that you've made prudent "green" building choice. See more details on page 14.

RigidForm™ Technology

RigidForm® 180 with .088" full rolled-over nail hem technology stiffens the siding for a straighter-on-the-wall appearance. Designed and tested* to withstand wind load pressures up to 180 mph.

*Products adhere to ASTM D7793 standards for capable wind speed ratings based on standard wind load design pressure ratings. For most current ratings, please reference www.certainteed.com

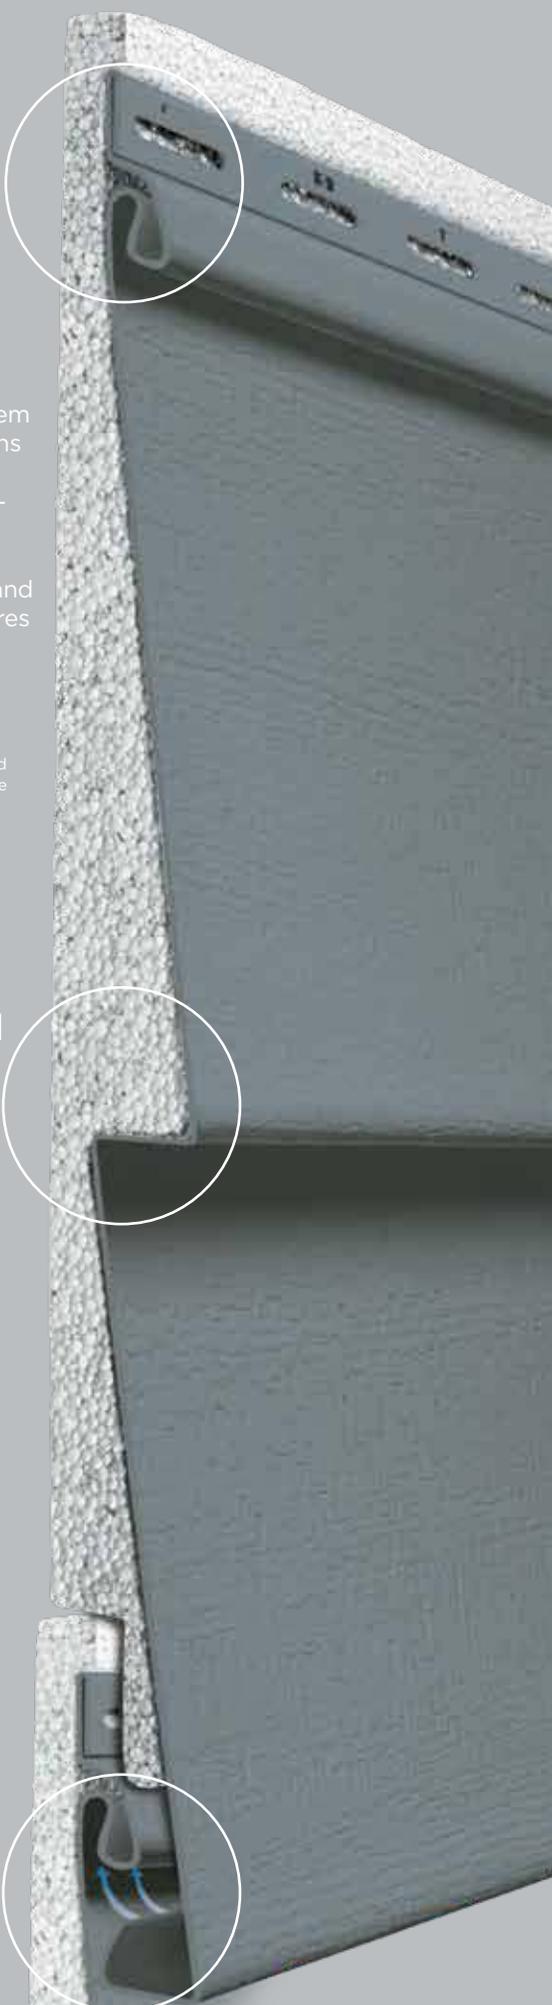

Deep Panel Projection

A 3/4" panel projection for excellent rigidity and straighter-on-the-wall performance.

Secure Locking System

This DuraLock® locking system snaps tight for a secure fit.

6" CLAPBOARD

Straight Profile Face

All profiles feature a flat, even face, replicating the look of milled cedar.

Foam Backing

For increased energy savings and additional comfort.

7" CLAPBOARD

Heavy-duty Thickness

True .044" thickness for outstanding strength and durability for all horizontal profiles. True .052" thickness for the Board & Batten profile.

12" BOARD & BATTEN

Authentic Texture

CedarBoards utilizes TrueTexture™, a direct transfer system from real cedar boards for a natural rough cedar woodgrain finish. Our decorative trim product line offers the look of true wood craftsmanship, too.

Spruce

20 Long-Lasting Colors

PermaCOLOR™ System assures color performance, resistance and durability. Utilizing the newest technology and state-of-the-art formulations, CertainTeed backs their vinyl siding with PermaCOLOR Lifetime Fade Protection.

Trusted Brand

CertainTeed siding is the brand preferred by building professionals and homeowners, from surveys conducted by national trade magazines. CertainTeed is an industry leader for over 100 years.

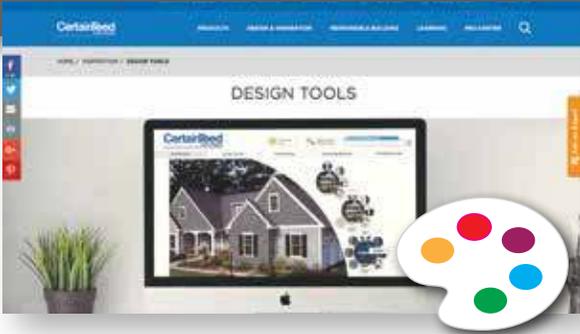

...for the environment.

CertainTeed respects the environment through the responsible development of sustainable building products and systems. CedarBoards is a sustainable product:

- > **Uses minimal raw materials and generates zero** waste in the manufacturing process.
- > **Reduces the use of natural resources** such as cedar and other woods.
- > **Prevents toxins from entering the environment** because it never needs painting or caulking.
- > Helps meet the stringent requirements of LEED and NGBS Green Building Standards.
- > The insulating foam backing **contributes to energy conservation.**
- > **Contains no phthalates or heavy metals.**
- > NGBS green approved product.

We can help

Color and Design Tools
www.certainteed.com/colortools

What is your color and design comfort level?

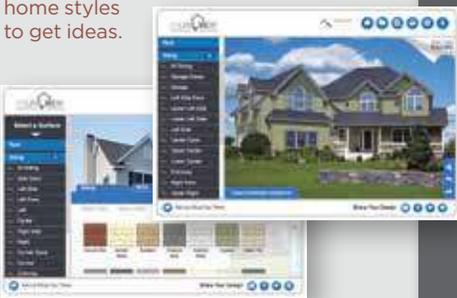

NOVICE

You are not sure about colors and are not sure where to start.

Online

Mix and match colors and styles on a wide variety of pre-populated home styles to get ideas.

INTERMEDIATE

You understand color and enjoy experimenting with color combinations but aren't exactly sure which color direction you want to go.

DIY

Immediately begin designing by uploading a project picture and quickly mix and match products on your own project.

EXPERT

You already know what colors you want to use, but would like to see how the products available in your color theme will look together on your home.

Pro

Have a photo of your home professionally masked in a few days so you can visualize in ColorView tool.

ColorCoach™

Gives you a virtual swatchbook to get started.

with your decisions.

Want More Ideas?

No Place Like Home Brochure

This brochure helps inspire ideas (pub. no. CTS435).

Go online for the PDF version or call 800-782-8777 for the brochure.

1 Look for color palette ideas in your surroundings, including landscaping, trees and gardens in your neighborhood and the larger area where you live. The colors you pick for your interior walls can also influence your exterior walls.

2 You may be inspired by your neighbors' color schemes, but it is a good idea to avoid copying them exactly and best to create your own unique combination that sets your home apart. In most cases, you want your home to fit in but not clash with nearby buildings.

3 You need to first consider the appearance of any features on the home that will remain unchanged and harmonize your siding color with them. This includes roofing, masonry, stone, stairways, doors, etc.

4 If your home's architectural style is very distinct (Colonial, Greek Revival, etc.) you will get best results if your color selection and treatment complements its original design.
